

SiNTLUCAS

SiNTLUCAS

Task 1: Our neighbour Frits

On the left side of the SintLucas-building you can now find the tallest building of Strijp-S. How many floors (not layers) does this building consist of?

Perhaps you could use your good friend GOOGLE!

Answer: 17, there are 18 layers and 17 floors. The top layer is not a separate floor.

Task 2: Be an eagle

You are on the Ketelhuisplein. You can see that it is quite large so here is the following question: By taking how many stair steps do you get the best possible photo of the entire Ketelhuisplein in a bird's eye view?

The number of steps is the number for the code.

Answer: 60, Walk up the high blue stairs of the boiler house. From here you can take a nice picture in a bird's eye view. This staircase has '60' iron steps (without concrete steps included).

Task 3: Always in the mood

mood
RESTAURANTE & BAR

Mood is a French-Asian restaurant located at Strijp-S. This restaurant is best known for its tasty sushi and specifically the sushi boat (definitely recommended).

How many emordnilaps with 4 letters can you make with the word 'MOOD'.

The number of words is the correct number for the code.

Answer: 1, the emordnilaps is DOOM and there can only be one.

Task 4: the city of lights

Climb on top of the scaffolding. Here you can stand nicely and you also have a good view over "het Ketelhuisplein".

Philips is the creator of light bulbs, which is why Eindhoven is also called the city of lights.

How often can you see this beautiful name from this perspective?

The number of times you can read the name is the correct number for the code.

Answer: 4, You can see this logo "4" times. See the image where? To the right of the image is the 'Philips' clock. At the top is the Philips logo and on the clock itself there is also 2x 'Philips' in letters. That's how you end up with '4'.

Task 5: crack the code

It's good that you're standing on the beautiful scaffolding, what a view you have here! Multiply the code XO.

X, which is the number of chimneys you can count from here;
times

O, which is the amount of plant pots (circled) you see in real life at the square.

You are not allowed to leave the scaffolding to carry out this task.

The number that comes out of this is the correct number for the code.

Answer: 16, the amount of chimneys is "2" and the amount of plant pots is "8". 2 times 8 is 16.

Task 6: somebody's watching me

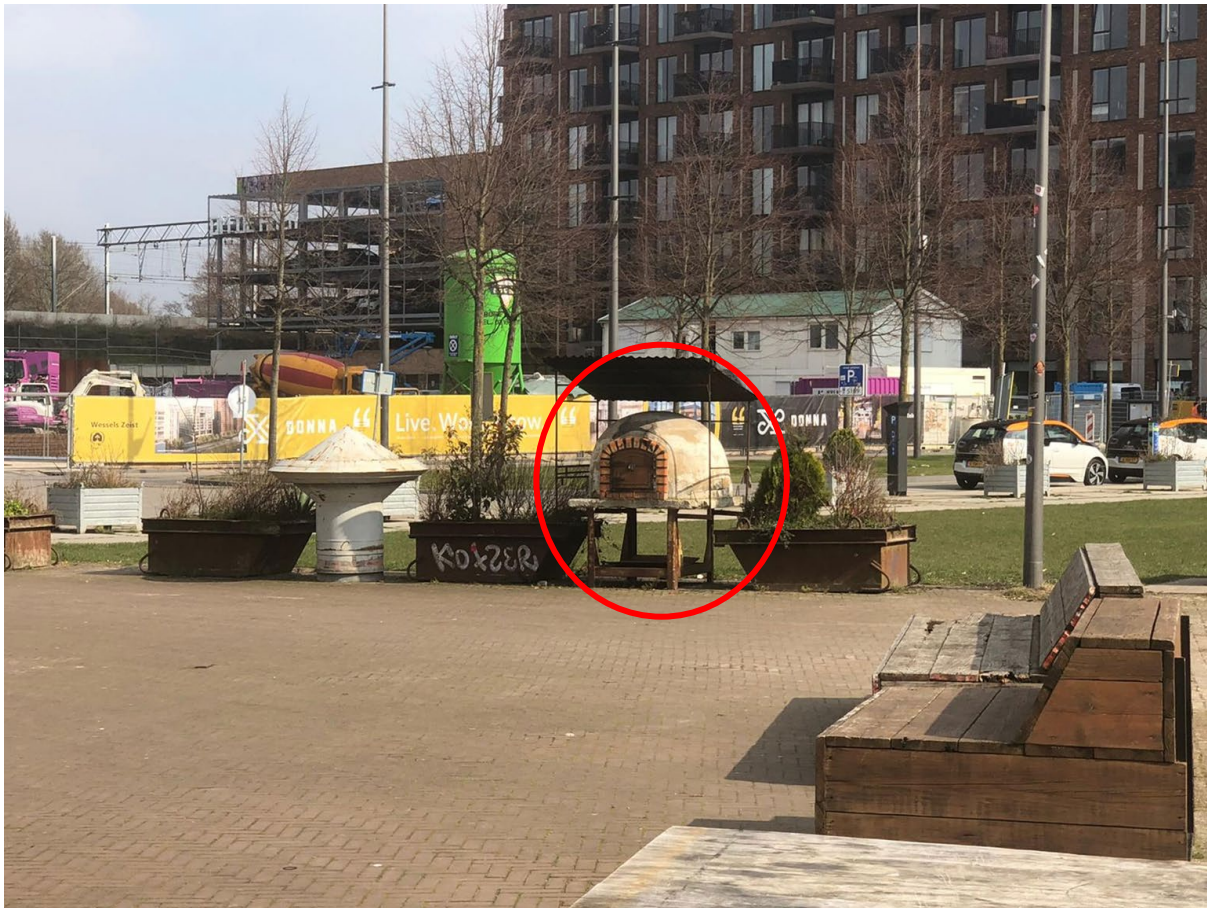

You probably know the pink panther. Nowadays you also have the black panther. From the scaffolding you are able to see the panther's eyes. How many animals are being watched by this set of eyes?

Answer: 4, The correct answer is "4." If you look into the eyes of the black cat on the container, there are 4 animals drawn in it. .

Task 7: the Tower of Pizza

This gorgeous Ketelhuysplein can feel just like beautiful Italy during good weather. Our square also has something typically Italian in which the temperature can rise considerably. How many tiles do you count on this typically Italian object?

The number of tiles is the correct number for the code.

Answer: 28, The correct answer is "28" tiles for the pizza oven at the square (see picture).

Task 8: Electric feel

Eindhoven is trying to be more and more environmentally friendly. If you had 10 electric cars. How many of those would you be able to charge here?

Answer: 6, There are 6 charging spots for electric cars. Even if you had 10 electric cars you would only have 6 spots to charge your 6 cars.

Task 9: lo(o)se shoes

Go to this spot of the Ketelhuisplein (opposite Area 51) and look up.
How many people have lost a pair of shoes here?

Answer: 22, There are 44 shoes in total so 22 people have lost a pair of shoes.

Task 10: Area code

Go to this spot of Strijp-S, close to the coffeelab. On your left you will see a building with the same name of the area code of Eindhoven. What is this number?

Answer: 40, The name on the wall on the left is 040 skate park. 040 is also the area code for Eindhoven.
